GitHub: github.com/mi8mto

Portfolio: <https://ihar-dev.vercel.app>

Frontend Developer with experience building modern web applications using React and TypeScript. Worked on business websites and client applications, developing responsive user interfaces, integrating REST APIs, and implementing reusable components. Comfortable working with modern frontend tools, collaborating in Git-based workflows, and continuously improving development practices.

Skills

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

State Management: Redux Toolkit, Zustand, TanStack Query

Forms & Validation: React Hook Form, Zod

Backend: Node.js, Express, REST APIs

Databases: PostgreSQL, MongoDB, Prisma

Testing: Jest, React Testing Library, Vitest

Tools: Git, Docker, Vite, Webpack, ESLint, Prettier, Vercel

AI Tools: ChatGPT, GitHub Copilot, Cursor

Professional Experience

2024-
Present

Frontend Developer (Contract)

- Develop web applications and business websites using React, TypeScript, and Next.js.
- Build responsive user interfaces and reusable React components.
- Integrate REST APIs and implement authentication and authorization features.
- Work with forms using React Hook Form and Zod.
- Manage application state with Redux Toolkit and Zustand.
- Maintain existing functionality, fix bugs, and implement new features.
- Collaborate with clients to clarify requirements and deliver frontend solutions.
- Use Git for version control and AI tools (ChatGPT, GitHub Copilot, Cursor) to improve development workflow.

2025-2026

Web Development Mentor (Part-time) - HTML Academy

- Review student assignments and provide code reviews.
- Help students debug JavaScript, React, HTML, and CSS issues.
- Explain frontend development concepts and share best practices.
- Conduct mentoring sessions and answer technical questions.

2023-2024

Frontend Developer - WebCraft Studio

- Develop responsive websites using HTML5, CSS3, and JavaScript.
- Convert Figma and PSD mockups into responsive, cross-browser layouts.
- Implement interactive UI elements using JavaScript (ES6+).
- Maintain and update existing websites.
- Collaborate with the team on frontend implementation for client projects.

Projects

- 2026

Ebook Builder Platform

React • Next.js • TypeScript • Zustand • Tailwind CSS

- Built a document editor for creating structured documents with reusable content blocks.
 - Implemented block creation, editing, deletion, drag-and-drop reordering, and nested content.
 - Developed undo/redo history, autosave, and automatic page generation.
 - Added preview mode and PDF export for document sharing.
 - Designed a modular component architecture focused on maintainability and extensibility.
- 2025

NEXPO - Task Management Platform (Fullstack)

React • TypeScript • Next.js • Prisma • PostgreSQL • NextAuth • dnd-kit • Zod

- Built a task management platform with authentication and personal workspaces.
 - Implemented task creation, editing, status management, and drag-and-drop functionality.
 - Integrated PostgreSQL using Prisma ORM for data persistence.
 - Implemented authentication and protected routes with NextAuth.
 - Built reusable UI components with responsive layouts.
- 2025

TechStore - E-commerce SPA

React • TypeScript • Redux Toolkit • REST APIs • Webpack • Docker

- Developed an e-commerce single-page application with user authentication.
 - Integrated REST APIs for products, users, and shopping features.
 - Managed application state using Redux Toolkit.
 - Built responsive pages and reusable UI components.
 - Configured the project build with Webpack and Docker.

Education

Professional Retraining Diploma, Frontend Developer
Humanistica | 2024 – 2025

Master's Degree, Research engineer
National Aviation University | 2012 – 2014

Bachelor's Degree, Aerospace and Rocket Engineering
National Aviation University | 2008 – 2012

Courses & Additional Training

- 2024-2025 | Frontend Development Program - Result University

- Studied React, TypeScript, Redux Toolkit, and modern frontend development.
 - Built single-page applications with authentication, REST APIs, and responsive layouts.
 - Worked with Git, Webpack, and team development practices.
- 2024 | Advanced Animations with CSS & JavaScript - HTML Academy

- Learned CSS animations, transitions, transforms, and JavaScript animations.
 - Built interactive UI animations with a focus on smooth user experience and cross-browser compatibility.
- 2023 | Frontend Development Program - The Rolling Scopes School

- Completed an intensive frontend development program.
 - Built team projects using JavaScript, HTML, CSS, and Git.
 - Worked with pull requests, code reviews, and Agile development practices.
